A DEMOCRATIC VIEW.

Chairman Henderson Gives the Facts About the Poll and His Own Predictions Regarding the Contest.

INDIANAPOLIS, Oct. 18.—Chairman Henderson talked over the political situation in this state this morning, giving such facts as he thought best to make public and his own views, from the information which had been obtained by himself and the committee. Without indulging in sweeping declarations and predictions, he gave some information which has more than a passing interest. In answer to an inquiry regarding a possible poll of the state, he said: "We have about completed what might be called a preliminary poll, but it is somewhat different from those of former years. We sent to each county blanks, to be filled out by the respective chairmen, giving in a general way the results of their local polls, and, in case they were not all completed, estimates as to the probable results of the voting. Nearly all of these have been returned, but the only figuring that has been done was on these returns from the first forty counties that came in. There may be room for a slight doubt as to their accuracy, from the fact that in a number of counties the polls show a less number of voters than in 1884, which does not seem probable. Of course, this being an off year, a comparatively light vote may be expected on both sides; but a poll would not show this. Compared with the relative strength of the two parties two years ago, the polls give us gains, the average in the forty counties, if it holds good throughout the state, indicating that we will have a plurality of between 11,000 and 12,000. A significant fact is that they show a decrease in the greenback vote and a very marked increase in the prohibition vote, which, from present indications will amount to 9,000 or 10,000, almost three times as much as in 1884. I am inclined to think that much of this accession will come from the greenbackers, who have not kept up their organization, while the prohibitionists are already organized, with local tickets and all that, I believe, in about forty-five counties. The only anxiety I have had was early in the campaign, when I feared a little that we would not be able to get all our vote out, but the reports that I have since received indicate that we will. In fact, in the last week or so the interest in the campaign has increased very decidedly. The issues are pretty well understood. The gerrymander won't make a vote, not a single vote for the republicans, I am confident of that. The old cry, 'You're another,' can be used most effectively against them when they howl injustice and disfranchisement, because of their gerrymanders when they were in power. They may be able to make some impression on the public mind by this state treasury and insane hospital business, but I don't believe it will amount to much. This alleged dissatisfaction among democrats regarding the administration is greatly overestimated; the state ticket will not be affected by it. The only dissatisfaction that exists is local, that is against certain congressmen, on account of the distribution of the patronage. Some of them may lose a few votes by it, but they will be traded off for candidates on the state ticket."

HARRISON'S SCHEME.

The Indiana Republicans Seeking, by Dividing the Democrats, to Elect a Legislature.

WASHINGTON, Oct. 18.—Some leading republicans here are claiming that Senator Harrison has fixed up a scheme in Indiana that will enable him to carry the legislature and re-elect himself to the senate. They are counting on two state senators from the Third Congressional district, which is located directly opposite of Louisville and has heretofore been strongly democratic. There are two senators to be elected in this district—one in the counties of Clark and Jefferson and the other in the counties of Jackson and Lawrence. In the former counties the democratic majority is about 400. The republican leaders, however, have so skillfully manipulated matters that they have got the democrats quarreling among themselves, and the situation is dangerous.

This confusion has been brought about by inducing democrats to run independent for offices, they, the republicans, promising them their support. The only support these independent dupes will receive is by a trade in which the re-

publican candidates for the legislature will gain all the benefit. The republican scheme is to divide the democratic vote, then cut in and elect their legislative candidates. The exposure of this weak device by the republican schemers should be all that is necessary to defeat it.

The Indiana democrat who would sell out to Ben Harrison is not worth the powder that would blow him to shreds.

For False Imprisonment.

KALAMAZOO, Oct. 18.—Henry Bailey, acquitted last night of the charge of train wrecking, has sued Sheriff Galligan for \$10,000 for false imprisonment.

Seth Holcomb charged with putting a rail on the Grand Rapids and Indiana track at Vicksburg, was acquitted, and Watson was sent to Iowa for one year and six months for larceny.

THE STATE OF TRADE.

The Volume of Business Checked Somewhat, But Confidence Unshaken.

NEW YORK, Oct. 18.—Special telegrams to *Bradstreet's* note a moderate check in the movement of general merchandise throughout the country, due in part to natural reaction following the season of active trading, and in part to the effect of the late period of unseasonably warm weather. The situation, however, still continues very favorable with quite a full volume of transactions and a very wide-spread feeling of confidence in the future.

Indiana Presbytery.

VINCENNES, Ind., Oct. 18.—The Presbyterian synod of Indiana is in session here now. The retiring moderator, Dr. Kendall, of Laporte, preached the opening sermon. Rev. James M. Hutchinson, D. D., of Jeffersonville, was elected moderator, and Rev. Messrs. Charles T. White and Riley K. Wright were elected temporary clerks. Wabash was chosen as the place of holding the next meeting, which will be on the second Thursday in October, 1887. The present session will hold over until this evening.

Weather Indications.

WASHINGTON, Oct. 18.—The weather indications are as follows:
Indiana, fair weather, nearly stationary temperature.

IT'S SETTLED.

Delegate Barry Trying to Make Terms for the Strikers at Chicago.

CHICAGO, Oct. 18.—The great strike at the stock yards is practically settled. Delegate Barry, of the Knights of Labor, has just stated to a reporter that he would have an interview with the packers this afternoon and that he would tell them that the men were prepared to work ten hours a day, as demanded by the packers and that he should use every endeavor to have them discharge all the non-union men they have brought in, but would not keep the men out even if the packers refused to grant this. Armour & Co., say they will not discharge any men they have brought in and they feel almost independent of the strikers. They killed 500 cattle yesterday with their new men and expect to kill 600 to-day.

A Pinkerton man, in uniform and carrying his clothing, started through the yards toward Tower hall this morning. He was assaulted by a crowd of one hundred men and knocked down and beaten insensible. His clothing was torn to shreds, including the coat he was wearing. He recovered consciousness in time to escape from the second crowd that came to kill him.

GONE DOWN.

A Vessel and Crew of Twelve Lost in Sight of Shore.

ERIE, Pa., Oct. 18.—The amount of wreckage, spars and cabin furniture washed ashore to-day establishes the fact beyond doubt that the vessel reported as gone west of Erie yesterday must have gone down with the entire crew. When sighted the crew were in the rigging and numbered ten or twelve. Every effort was made to reach them by the government vessels. There is no clew to the unlucky craft's identity or port except the name board bearing the name which looks like "Peru," Chicago.

LONDON, Oct. 18.—The British steamer *Arkos*, from New York, September 29th, for Bordeaux, has been lost at the northern mouth of the Gironde, the wreckage and part of the cargo washing ashore. The British steamer *Kate*, from Savannah, arrived at Queenstown dis-

abled, her decks being much damaged. The British bark *Rutland*, from Quebec for Greenock, was abandoned off Lundy Island. A mate and carpenter were drowned. The other members of the crew were rescued and landed at Falmouth somewhat injured.

A Belfast dispatch says that the low-lying districts of Ulster are submerged. The gale on the Irish coast continues unabated, compelling all vessels to seek shelter. Limerick advises say the Maloeir river drainage works burst, flooding the adjacent district and destroying valuable crops. Much damage was done by a hurricane on the north-west coast of France, and many steamers were compelled to postpone their departure.

CHICAGO.

The Strike Quiet—The Wheat Crop in Indiana.

CHICAGO, Oct. 18.—There is no change in the situation in the packing house district this morning.

The *Farmer's Review* says that the fall wheat seeding is nearly finished in Missouri and Kansas and is still progressing in Indiana, Ohio and Michigan. Reports are not yet sufficiently complete to indicate the acreage. The few returns show an increase in Ohio and Indiana over last year. Reports of a drought again come from Kansas.

CHICAGO, Oct. 18.—The committee on the state of the church reported to the house deputies that the canon was sufficient in regard to lay readers, and deemed any further legislation inexpedient. Adopted. The committee on expenses reported the accounts in good shape and recommended re-electing Wm. W. Astor treasurer. Adopted.

The national council of Congregation at churches heard the report of the committee on theological seminary and urged the necessity of the church taking greater interest in the work.

OFFICIAL REPORT.

How Much John Sherman Thinks of the Laboring Man—All They Want is Votes—Read Carefully and Ponder.

Senator John Sherman will speak in this city next Wednesday evening. We don't know but we presume he will have something to say about the labor policy of his party.

When the national legislative committee of the Knights of Labor, of which Mr. Ralph Beaumont was chairman, went to Washington to promote some labor legislation, it attempted to obtain a hearing before the senate finance committee. The following extract from Mr. Beaumont's official report to the order will tell what happened:

After waiting until within one hour of the time for the assembling of the committee, and receiving no reply from Mr. Sherman, the chairman of your committee went to the door of the senate finance committee. Meeting Mr. Sherman, he presented his card, when the following short dialogue took place between them:

Sherman—"We cannot hear you sir."
Beaumont—"I wrote you a letter, sir. Did you receive it?"
Sherman—"Yes, sir."

Beaumont—"You did not answer it."
Sherman—"No, sir, we cannot hear you."

Beaumont—"But Mr. Jordan is to be heard by your committee. Am I not to be heard on behalf of the several hundred thousand petitioners that I represent?"
Sherman—"No, sir. Mr. Jordan is an official of the government; we must hear him. We respect you as an individual, but we have no time to listen to you." He handed Mr. Beaumont back his card and retired into the committee room, and thus ended the personal interview.

Mr. Sherman did not have time to listen to your committee, but did have time to keep the resolution in his possession for more than ten days, and hold two caucuses of his party at his house in the meantime to consider what policy it was best to pursue, and only brought the resolution out of his committee after Senator Coke, of Texas, gave notice that he would move at a certain date to relieve the committee from further consideration of it and bring it before the senate for action.

Mr. Sherman doubtless thinks that the laboring men of the country now "have time to listen" to him. We do not believe they have.

THINK ON THEM.

The Political Contest in the Twelfth District and What is Said About it.

Ligonier Banner

Thomas A. Hendricks always regarded Judge Lowry one of his main-stays in Indiana politics. He had the utmost confidence in the soundness of his judgment and the integrity of his purposes. If Mr. Hendricks could speak to the democracy of this district he would advise every loyal member of the party to heartily support Robert Lowry.

An important district like the Twelfth needs a master workman, not an apprentice, to attend to its business and its interests at Washington. Judge Lowry is by nature and education adapted to useful service in the halls of congress. He has an extensive acquaintance, and knows all about the several departments of the government. Experience is of inestimable value in a position of this character. Judge Lowry has the ability, the industry, the sagacity and the experience of a first-class congressman. A decent regard for the general welfare demands his re-election.

No republican, and certainly no kicker will undertake to show that J. B. White is in any respect to be compared with Judge Lowry as to qualifications for congressional service. Lowry is especially adapted to the performance of congressional duties, while White's mind is wholly fixed upon driving sharp bargains in commercial operations. No one who knows J. B. White supposes for a moment that he could fill Judge Lowry's place as a legislator or as a servant of his constituents. On the other hand, Judge Lowry is steadily growing in influence and usefulness. Every day spent at Washington adds to his efficiency. Why then think of swapping horses while crossing the stream.

A NICE CATCH.

Sheriff Nelson and his deputy, Mr. Ed. Clausmeyer, arrested Wm. Duck, yesterday. Duck who is a young man, was suspected of being one of the men who waylaid and robbed Elijah McArthur, a horse jockey with Tom Hunt, while the farmer was on his way to Ronaake a week or so ago. McArthur recognized Duck as his assailant and Justice Ryan bound him over to the criminal circuit court. The prisoner used to live at Cedarville and his mother owns a fine farm out there. It is probable he will squeal on his companion just to have company to the Lakeside resort.

The people live on Force street and the scandal is the gossip of the neighborhood. Justice Ryan has the case docketed and will bind the young man over.

THE MISSION.

It Closed at the Cathedral Amid Scenes of Grandeur and Much Solemnity.

The Mission that has been in progress for the past two weeks at the Cathedral closed last evening. There never was so large a crowd of people at one time in the vast edifice as last night recorded. Every bit of space from the sanctuary to the doors was occupied and it would have been impossible to make one's way through any of the aisles, so closely were they packed. Whilst the people stood waiting, the organist gave them the "Nun's Prayer," one of the most exquisite pieces to be found in the musical repertoire, and it was faultlessly rendered in elegant taste.

After this the *Veni Creator* was sung and Father Alexius opened his sermon. He spoke on "Perseverance," and his audience listened attentively throughout the entire hour of his discourse. Following the sermon the papal benediction was given and the father invoked a blessing in the pathetic tones of a great orator, and with the sincerity of a big-hearted man and a self-sacrificing and devoted priest.

For himself and his conferees he bade adieu to the catholic congregation. Benediction with the Sacred Host followed, after which the grand organ tones swelled the voices of the great choir, joined by hundreds in the church, and the "God of Might we Sing Thy Praise," forming a grand chorus, rolled out as of a mighty people singing the praises of the world's creator and proudly acknowledging Him the ruler of the universe, this successful religious work was brought to a close.

Father Alphonsus left at noon for his monastery at Louisville. Fathers Alexius and Boniface left this afternoon for their home at Cincinnati. These good Passionist Fathers by their zealous work and untiring zeal in the cause of religion, in behalf of their fellow man, have made their name a household word in Fort Wayne and their memory will be held in benediction.

CRIME.

A Jealous Husband in Indianapolis Shoots His Wife and Then Kills Himself.

INDIANAPOLIS, Oct. 18.—Last Thursday a man and woman sought lodging at the National hotel in this city. They appeared to be respectable married people and were assigned apartments. They registered as Henry Zeigler and wife, Cincinnati. Yesterday morning, getting anxious about their bill, the proprietor of the hotel sent a message to Zeigler's room that he would like to see him. His wife says that soon after the message was received he took his revolver and said to her: "Minnie our time has come." She began to scream, and then fell on her knees and prayed, finally working her way to the bell rope. He then fired two shots at her, two taking effect. She fell as if dead, and he placed the pistol under his chin, pulled the trigger, and the ball crashed through his brain, killing him instantly.

Gentlemen.—The benefits derived from your Duffy's Formula have been such that too much cannot be said in praise of the treatment. I formerly had indigestion, and had entirely disappeared, and the fact that I had in my mouth every morning, and which was very disagreeable, has now changed to a small portion of your whiskey every day, before breakfast, and I have no feeling of being loaded up with food, and the indigestion which I was greatly bothered with has now disappeared. I have gained 12 pounds in weight.

FACTS FOR VOTERS.

Hon. Charles McCulloch Makes an Honest and Masterly Statement of County Affairs.

To the Editor of THE SENTINEL.

Nothing more completely baffles trickery and deception than a straightforward statement of facts. I believe that the taxpayers of Allen county and the city of Fort Wayne are honest, intelligent men, not easily bamboozled or deceived. Living in the noonday of time, they read and think and the editors of republican papers in this city will find that the triumph of truth and reason are greater than those of misrepresentation. Slander cannot make a subject either better or worse and in the long run it acts like a boomerang upon the party that resorts to it. The true and concise statement of our county affairs, made by our county treasurer, is all that is necessary to puncture the false statements of republican newspapers, and it will be published often enough for every man in the county to read it and these pretended reformers will find that "truth is mighty and will prevail."

The statement shows that the commissioners did issue \$200,000 of bonds, and they bear five per cent interest, but the premium they brought, of \$4,000, brings the rate of interest to about 4 1/2 per cent or less. They did this to pay off every county order that drew 6 per cent, and to give them money enough to keep the county for the future on a cash basis and at the same time not to stint in the necessary expenses of a thriving county. Several years ago, about the time Mr. Rudisill was auditor, a large number of wooden bridges, on pile foundations, were built within a period of four years. Everyone knows what kind of bridges they were from the one at Rudisill's mill and Muldoon's dam. During the last four years these bridges have had to be rebuilt or repaired at a cost of over \$150,000, and in order to verify my statement I give figures of cost and location of bridges, and this will tell why for four years past the expenditures of the county have been heavy:

Wells street bridge, St. Marys river.	\$20,222 51
Paper Mill bridge, St. Joe river.	14,490 25
Clinton street bridge, St. Marys river.	14,315 73
Reedmill bridge, St. Marys river.	14,081 94
Hughes bridge, St. Marys river.	11,852 62
Stellborn bridge, St. Marys river.	8,551 00
Gloyd's mill bridge, Cedar Creek.	6,480 70
Three Bridges bridge, Flat Rock.	10,531 26
Morton's bridge, St. Marys river.	6,725 00
Abutments for Bull rapids, Maumee river.	6,761 25
Hutton road bridge.	2,822 50
Hobbs bridge, Hobbs run.	3,478 43
County line bridge, Little river.	4,150 85
Huntington road bridge.	2,933 62
Marquette bridge, Flat Rock.	2,103 93
Wilson bridge, Madison township.	2,116 17
Bel river bridge, Bel river.	3,179 48
Shawnee bridge, Shawnee run.	2,434 00
Abolt bridge, Abolt river.	2,153 03
New Haven bridge repairs.	1,731 36
Monroeville bridge.	1,558 50
Gar Creek bridge repairs.	1,170 00
Pitch bridge, Iron works.	120 00
May Run bridge, Iron works.	698 25
Hoagland bridge, near Hoagland.	1,145 92
Broadway bridge, Iron.	608 25
Leo bridge, repairs.	570 85
Nickerson bridge, Nickerson creek.	485 00
Canal bridge, near paper mill.	251 22
Canal bridge, near brewery.	251 22
Canal bridge, near Peters' mill.	151 50
Notestine's bridge.	165 58
Huntertown bridge.	122 20
Jafayette township bridge.	135 00
Academy station bridge, repairs.	299 00
Monroe township bridge, repairs.	158 50
Gar Creek bridge repairs.	125 00
Milan township bridge repairs.	106 00
Hamilton Creek bridge.	125 00
Scipio township bridge.	160 00
Township line bridge.	12 00
Mud Run bridge.	82 00
Meeting township bridge.	100 00
Cedar Creek bridge repairs.	70 00
Bringing township bridge repairs.	54 00
Painting Audubon bridge.	40 00
Painting Taylor's bridge.	25 00
Total.	\$153,290 77

Some more have yet to be built, but the work is principally done for many years to come. Allen county is the largest county in the state and has more bridges to build and keep up than any other county. She is second in wealth and manufacturing interests and had it not been for the necessary expenses above mentioned she would not have run behind one dollar. THE PEOPLE BELIEVE IN GOOD ROADS, SAFE BRIDGES, WELL MANAGED PUBLIC INSTITUTIONS, LIBERAL EXPENDITURES FOR HOSPITALS AND THE POOR.

The hospital and poor expenses alone from June 1, 1885, to June 1, 1886, were as follows, according to the report of Auditor Griebel:

Poor orders by township trustees.	\$22,821 00
Medicine.	168 29
Physicians.	2,349 37
Railroad fare.	271 25
City hospital.	4,540 63
St. Joseph hospital.	4,677 12
Asylum.	6,877 15
Asylum superintendent.	800 00
Poor house.	33 40
Overseers of poor, township trustees.	1,957 00
Total.	\$43,795 12

Viewing the great improvements and charities we can point with pride to our county and the paltry debt that is shown in the statement of the county treasurer is so straightforward and plainly legitimate that people never give it a moment's critical consideration. There has been no stealing. Men like William Briant, Jerome Gloyd, Henry Hartman, Louis Griebel, Willis Maier, John Dalman, Judge Hensch, Judge O'Rourke don't steal. Newspapers are the only accusers that dare say they do. Individually not one of the gentlemen who edit those papers would say so. The democratic and republican platforms both agreed that one term in a four year county office was long enough. With that idea prominent the present demo-

cratic county ticket was nominated and as Mr. P. S. O'Rourke said to me a few days ago, "it is as good a ticket as was ever nominated in Allen county," and Mr. O'Rourke is a close observer and always says exactly what he means. He also said that he had known Mr. Niezer from his boyhood, and that he was the soul of honor. The laws that regulate the county officials in the banner democratic county of Allen regulates them in republican counties. Allen county's prosperity and growth has been wonderful within the past few years, and the workmen who are building homes faster than ever all over our beautiful city, still have confidence in our public servants in spite of the attempts of newspaper gentlemen at each election to deceive them.

Respectfully,
CHARLES MCCULLOCH.

JOHN L. HILL, of Philadelphia, has returned from Europe, where he combined business with pleasure by examining all the big clocks in Europe, with a view to a acquiring knowledge which might be useful in view of the fact that Philadelphia intends to have the largest clock in the world in the tower of her new City Hall. The dial will be 36 feet in diameter. Great Ben, as the clock in the tower of the House of Parliament at London is named, has a dial of 22 feet 10 inches diameter. The works weigh 14,000 pounds, and it is regarded as carefully as if it were a gold mine. A record is kept of its workings, and it has varied but one-tenth of a second in the last two or three years. A person has to climb 1,400 steps to reach the clock. It takes two men four and a half hours each day to wind it up, and every morning its record is taken and transmitted to Mr. Deut, the maker. The lighting in the tower is done by hand. It could all be done by machinery, but the object of doing it by hand is to keep it accurate.

A voice from Italy.—Rev. W. C. VAN METTER, Superintendent of the Italian Bible and Sunday School Mission, at Rome, Italy, writes under date Sept. 1, 1884: "The Italians call Pond's Extract 'Aqua di Dio' Water of God. We use it for every ache and pain; it is indispensable in our medical department. I knew it was good before, but now, I cannot find words to express my praise of excellence." Invaluable for Cuts, Burns, Bruises, Catarrh, Neuralgia, etc.

The Grand Rapids and Indiana people are repairing their depot at Kendallville. This does not look much like a new union depot.

Valuable and Convenient.—Brown's Bronchial Troches are a safe and sure remedy for Bronchitis, Coughs and other troubles of the throat and lungs. Sold only in boxes. Price 25 cents.

Scott's Emulsion of Pure Cod Liver Oil With Hypophosphites.

For Lung Troubles and Wasting Diseases.
Dr. J. Simonson, New Orleans, La., says: "Scott's Emulsion is the finest preparation of the kind ever brought to my notice. In affections of the lungs and other wasting diseases, we may consider it our most reliable agent. I can perfectly and agreeably recommend it."

The Tri-State Normal, at Angola, has purchased \$450 worth of apparatus this year, and erected a building worth \$2,000 for music department.

In the Dear Old Days.
We differ in creed and politics, but we are a unit all the same on the desirableness of a fine head of hair. If you mourn the loss of hair, or the loss of a lock, or a bottle or two of Parker's Hair Balm will make you look as you did in the dear old days. It is worth trying. It is the only standard 50-cent article for the hair.

"ROSCOE CONKLING," said a New York jeweler, "has a broad mind. He is not only a great lawyer, but his general information is great. He has a great many chains and charms, and he calls them all keepsakes. He asks questions about the jewelry business which prove that he knows what he is talking about. The other day, when he ordered a pair of sleeve-buttons, he drew a diagram showing just the size and thickness he wanted them made. No jeweler could have drawn it more clearly or more correctly."

When Baby was sick, we gave her Castoria.
When she was a child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

For the relief and cure of inflammation and congestion called "a cold in the head" there is more potency in Ely's Cream Balm than in anything else it is possible to prescribe. This preparation has years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cream Balm prevents any serious development of the symptoms, while almost numberless cases on record of radical cures of chronic catarrh and hay fever after all other modes of treatment have proved of no avail.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are getting teeth. It relieves the little sufferers at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub wakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Jan. 19-20-21-22.

The railroad men, in convention at New York, magnanimously agreed to wait for the result of the experiments with a twenty-four o'clock system, and for public opinion on the matter, before adopting it all over the country. The Pennsylvania Railroad company has fitted up on the western divisions twelve coaches with the Standard Heater and Ventilating company's heaters. The fire with these heaters is beneath the coach. The coal reservoir is filled at a terminal, and thereafter, until consumed, it is self-feeding, similar to a base burner. It is claimed that, being in the center of the coach, the heat is evenly distributed throughout the car.

The Odd Fellows' Mutual Aid association has paid \$3,500 to the estate of O. F. Wilson, of Bluffton, and yet after sixty-six years of recognition as one of the greatest benevolent organizations in existence, during which time \$11,154,600.08 have been paid to relieve distress, bury the dead, and educate the orphan, and assist the widow, a railroad monopoly has declared the order not benevolent in character.

The Wabash people have demanded of Commissioner Midgely that a meeting of the managers shall be held, and the subject of rearranging and reallothing percentages be taken up. Brubaker, a pensioner at Montpelier, that he was a pension officer; that he was sent to examine into his (Brubaker's) case; that his pension was likely to be stopped, but that for \$50 to pay expenses he would go to Washington and fix the matter up. Brubaker paid the amount, learned that Von was no officer; he was arrested, jumped his bail, and for a long time kept out of reach. A DEMOCRATIC VIEW.

Chairman Henderson fires the Pistol
About the Fall and His Own
Predictions Regarding
the Contest.

INDIANAPOLIS, Oct. 18.—Chairman Henderson talked over the political situation in this state this morning, giving such facts as he thought best to make public and his own views, from the information which had been obtained by himself and the committee. Without indulging in sweeping declarations and predictions, he gave some information which has more than a passing interest. In answer to an inquiry regarding a possible poll of the state, he said: "We have about completed what might be called a preliminary poll, but it is somewhat different from those of former years. We sent to each county blanks, to be filled out by the respective chairmen, giving in a general way the results of their local polls, and, in cases where they were not all completed, estimates as to the probable results of the voting. Nearly all of these have been returned, but the only figuring that has been done was on these returns from the first forty counties that came in. There may be room for a slight doubt as to their accuracy, from the fact that in a number of counties the polls show a less number of voters than in 1884, which does not seem probable. Of course, this being an off year, a comparatively light vote may be expected on both sides; but a poll would not show this. Compared with the relative strength of the two parties two years ago, the polls give us gains, the average in the forty counties, if it holds good throughout the state, indicating that we will have a plurality of between 11,000 and 12,000. A significant fact is that they show a decrease in the greenback vote and a very marked increase in the prohibition vote, which, from present indications will amount to 9,000 or 10,000, almost three times as much as in 1884. I am inclined to think that much of this accession will come from the greenbackers, who have not kept up their organization, while the prohibitionists are already organized, with local tickets and all that, I believe, in about forty-five counties. The only anxiety I have had was early in the campaign, when I feared a little that we would not be able to get all our vote out, but the reports that I have since received indicate that we will. In fact, in the last week or so the interest in the campaign has increased very decidedly. The issues are pretty well understood. The greenbacker won't make a vote, not a single vote for the republicans, I am confident of that. The 'd' cry, 'You're another,' can be used most effectively against them when they howl injustice and disfranchisement, because of their gerrymandering when they were in power. They may be able to make some impression on the public mind by this state treasury and insane hospital business, but I don't believe it will amount to much. This alleged dissatisfaction among democrats regarding the administration is greatly overestimated; the state ticket will not be affected by it. The only dissatisfaction that exists is local, that is against certain congressmen, on account of the distribution of the patronage. Some of them may lose a few votes by it, but they will be traded off for candidates on the state ticket.

HARRISON'S SCHEME.

The Indiana Republicans Seeking, by
Dividing the Democrats, to Elect a
Legislature.

WASHINGTON, Oct. 18.—Some leading republicans here are claiming that Senator Harrison has fixed up a scheme in Indiana that will enable him to carry the legislature and re-appoint himself to the senate. They are counting on two state senators from the Third Congressional district, which is located directly opposite of Louisville and has heretofore been strongly democratic. There are two senators to be elected in this district—one in the counties of Clark and Jefferson and the other in the counties of Jackson and Lawrence. In the former counties the democratic majority is about 400. The republican leaders, however, have so skillfully manipulated matters that they have got the democrats quarrelling among themselves, and the situation is dangerous.

This confusion has been brought about by inducing democrats to run independent for office, they, the republicans, promising them their support. The only support these independent demes will receive is by a trade in which the re-

publican candidates for the legislature will gain all the benefit. The republican scheme is to divide the democratic vote, then cut in and elect their legislative candidates. The exposure of this weak device by the republican schemers should be all that is necessary to defeat it.

The Indiana democrat who would sell out to Ben Harrison is not worth the powder that would blow him to shreds.

For False Imprisonment.

KALAMAZOO, Oct. 18.—Henry Bailey, acquitted last night of the charge of trade wrecking, has sued Sheriff Gailigan for \$10,000 for false imprisonment. Seth Holcom, charged with putting a rail on the Grand Rapids and Indiana track at Vicksburg, was acquitted, and Watson was sent to jail for one year and six months for larceny.

THE STATE OF TRADE.

The Volume of Business Checked Somewhat, But Confidence Unshaken.

New York, Oct. 18.—Special telegrams to Bradstreet's note a moderate check in the movement of general merchandise throughout the country, due in part to natural reaction following the season of active trading, and in part to the effect of the late period of unseasonably warm weather. The situation, however, still continues very favorable with quite a full volume of transactions and a very wide-spread feeling of confidence in the future.

Indiana Presbytery.

VIRGENESS, Ind., Oct. 18.—The Presbytery of Indiana is in session here now. The retiring moderator, Dr. Kendall, of Laporte, preached the opening sermon. Rev. James M. Hutchinson, D. D., of Jeffersonville, was elected moderator, and Dr. Messers. Charles T. White and Riley K. Wright were elected temporary clerks. Whitash was chosen as the place of holding the next meeting, which will be on the second Thursday in October, 1887. The present session will hold over until this evening.

Weather Indications.

WASHINGTON, Oct. 18.—The weather indications are as follows:
Indiana, fair weather, nearly stationary temperature.

IT'S SETTLED.

Delegate Barry Trying to Make Terms
for the Strikers at Chicago.

CHICAGO, Oct. 18.—The great strike at the stock yards is practically settled. Delegate Barry, of the Knights of Labor, has just stated to a reporter that he would have an interview with the packers this afternoon and that he would tell them that the men were prepared to work ten hours a day, as demanded by the packers and that he should use every endeavor to have them discharge all the non-union men they have brought in and that he would not keep the men out even if the packers refused to grant this. Armour & Co., say they will not discharge any men they have brought in and they feel almost independent of the strikers. They killed 500 cattle yesterday with their new men and expect to kill 600 to-day.

A Pinkerton man, in uniform and carrying his clothing, started through the yards toward Tower hall this morning. He was assailed by a crowd of one hundred men and knocked down and beaten senseless. His clothing was torn to shreds, including the coat he was wearing. He recovered consciousness in time to escape from the second crowd that came to kill him.

GONE DOWN.

A Vessel and Crew of Twelve Lost in
Sight of Sharn.

ENGLAND, Oct. 18.—The amount of wreckage, spars and cabin furniture washed ashore to-day establishes the fact beyond doubt that the vessel reported ashore west of Erie yesterday must have gone down with the entire crew. When sighted the crew were in the rigging and numbered ten or twelve. Every effort was made to reach them by the government vessels. There is no clew to the unlucky craft's identity or just except the name board bearing the name which looks like "Pora," Chicago.

LONDON, Oct. 18.—The British steamer Arlos, from New York, September 29th, for Bordeaux, has been lost at the northern mouth of the Gironde, the wreckage and part of the cargo washing ashore. The British steamer Kate, from Savannah, arrived at Queenstown dis-

abled, her decks being much damaged. The British bark Rutland, from Quebec for Greenock, was abandoned off Lundy Island. A male and carpenter were drowned. The other members of the crew were rescued and landed at Plymouth somewhat injured.

A Belfast dispatch says that the low-lying districts of Ulster are submerged. The gate on the Irish coast continues unshaken, compelling all vessels to seek shelter. Limerick advises say the Mid-Atlantic river drainage works burst, flooding the adjacent district and destroying valuable crops. Much damage was done by a hurricane on the north-west coast of France, and many steamers were compelled to postpone their departure.

CHICAGO.

The Strike Quiet—The Wheat Crop in
Indiana.

CHICAGO, Oct. 18.—There is no change in the situation in the packing house district this morning.

The Farmer's Review says that the fall wheat seedling is nearly finished in Missouri and Kansas and is still progressing in Indiana, Ohio and Michigan. Reports are not yet sufficiently complete to indicate the average. The few returns show an increase in Ohio and Indiana over last year. Reports of a drought again come from Kansas.

CHICAGO, Oct. 18.—The committee on the state of the church reported to the house deputies that the canon was sufficient in regard to lay readers, and deemed any further legislation inexpedient. Adopted. The committee on expenses reported the accounts in good shape and recommended re-electing Wm. W. Astor treasurer. Adopted. The national council of Congregational churches heard the report of the committee on theological seminaries and urged the necessity of the church taking greater interest in the work.

OFFICIAL REPORT.

How Much John Sherman Thinks of the
Laboring Man—All They Want is
Votes—Read Carefully and
Ponder.

Senator John Sherman will speak in this city next Wednesday evening. We don't know but we presume he will have something to say about the labor policy of his party.

When the national legislative committee of the Knights of Labor, of which Mr. Ralph Beaumont was chairman, went to Washington to promote some labor legislation, it attempted to obtain a hearing before the senate finance committee. The following extract from Mr. Beaumont's official report to the order will tell what happened:

After waiting until within one hour of the time for the assembling of the committee, and receiving no reply from Mr. Sherman, the chairman of our committee went to the door of the senate finance committee. Meeting Mr. Sherman, he presented his card, when the following short dialogue took place between them:

Sherman—"We cannot hear you sir."
Beaumont—"I wrote you a letter, sir. Did you receive it?"
Sherman—"Yes, sir."
Beaumont—"You did not answer it."
Sherman—"No, sir, we cannot hear you."

Beaumont—"But Mr. Jordan is to be heard by your committee. Am I not to be heard on behalf of the several hundred thousand petitioners that I represent?"

Sherman—"No, sir. Mr. Jordan is an official of the government; we must hear him. We respect you as an individual, but we have no time to listen to you." He handed Mr. Beaumont back his card and retired into the committee room, and thus ended the personal interview.

Mr. Sherman did not have time to listen to your committee, but did have time to keep the resolution in his possession for more than ten days, and hold two sessions of his party at his home in the meantime to consider what policy it was best to pursue, and only brought the resolution out of his committee after Senator Coke, of Texas, gave notice that he would move at a certain date to re-consider the committee from further consideration of it and bring it before the senate for action.

Mr. Sherman doubtless thinks that the laboring men of the country now "have time to listen" to him. We do not believe they have.

THINK ON THEM.

The Political Contest in the Twelfth
District and What is Said
About it.

Ligatured Banner.

Thomas A. Hendricks always regarded Judge Lowry one of his main-stays in Indiana politics. He had the utmost confidence in the soundness of his judgment and the integrity of his purposes. If Mr. Hendricks could speak to the democracy of this district he would advise every loyal member of the party to heartily support Robert Lowry.

An important district like the Twelfth needs a master workman, not an apprentice, to attend to its business and its interests at Washington. Judge Lowry is by nature and education adapted to useful service in the halls of congress. He has an extensive acquaintance, and knows all about the several departments of the government. Experience is of inestimable value in a position of this character. Judge Lowry has the ability, the industry, the sagacity and the experience of a first-class congressman. A decent regard for the general welfare demands his re-election.

No republican, and certainly no kicker will undertake to show that J. B. White is in any respect to be compared with Judge Lowry as to qualifications for congressional service. Lowry is especially adapted to the performance of congressional duties, while White's mind is wholly fixed upon driving sharp bargains in commercial operations. No one who knows J. B. White supposes for a moment that he could fill Judge Lowry's place as a legislator or as a servant of his constituents. On the other hand, Judge Lowry is steadily growing in influence and usefulness. Every day spent at Washington adds to his efficiency. Why then think of swapping horses while crossing the stream.

A NICE CATCH.

Sheriff Nelson and His Deputy Bag a
Young Highwayman.

Sheriff Nelson and his deputy, Mr. Ed. Chasemeyer, arrested Wm. Duck, yesterday. Duck who is a young man, was suspected of being one of the men who waylaid and robbed Elmer Arthur, a horse jockey with Tom Hunt, while the farmer was on his way to Rockaway week or so ago. McArthur recognized Duck as his assailant and Justice Ryan bound him over to the criminal circuit court. The prisoner used to live at Cedarville and his mother owns a fine lot on there. It is probable he will acquiesce on his companion just to have company to the Lakeside resort.

The Liquor Men in Session.

CHICAGO, Oct. 18.—The national convention of liquor dealers began here at noon to-day with a large attendance. J. A. Pratt, of Louisville, was made temporary chairman. He explained that the object of the convention was to make the liquor business as respectable as possible.

A BRUTE.

A Fierce Street Lad in Truss for a Bad
Breuch of Law.

Charles Schrautz was arrested to-day for making a brutal, indecent and nameless assault on Eva Landroff, a week or so ago. The vicious brute is fifteen years old, while his victim is but eight years of age. The girl is in awful agony, and Dr. J. M. Dismore seems to be in a precarious condition. The people live on Force street and the scandal is the gossip of the neighborhood. Justice Ryan has the case docketed and will bind the young man over.

In Goshen there are two grocery stores which have been taken possession of by a Toledo wholesale house, to satisfy its claims. The grocery business is overdone.

THE MISSION.

It (closed at the Cathedral Anti-Slavery
of Grandeur and Much Solemnity.

The Mission that has been in progress for the past two weeks at the Cathedral closed last evening. There never was so large a crowd of people at one time in the vast edifice as last night recorded. Every bit of space from the sanctuary to the doors was occupied and it would have been impossible to make one's way through any of the aisles, so closely were they packed. While the people stood waiting, the organist gave them the "Nun's Prayer," one of the most exquisite pieces to be found in the musical repertoire, and it was faultlessly rendered in elegant taste.

After this the *Veni Creator* was sung and Father Alexius opened his sermon. He spoke on "Perseverance," and his audience listened attentively throughout the entire hour of his discourse. Following the sermon the papal benediction was given and the father invoked a blessing in the pathetic tones of a great orator, and with the sincerity of a high-souled man and a self-sacrificing and devoted priest.

For himself and his conferees he bade adieu to the catholic congregation. Benediction with the Sacred Host followed, after which the grand organ tones swelled the voices of the great choir, joined by hundreds in the church, and the "God of Might we Sing Thy Praise," forming a grand chorus, filled out one of a mighty people singing the praises of the world's creator and proudly acknowledging Him the ruler of the universe, this successful religious work was brought to a close.

Father Alphonsus left at noon for his monastery in Louisville. Fathers Alexius and Bonifacio left this afternoon for their home at Cincinnati. Three good Passionist Fathers by their zealous work and untiring zeal in the cause of religion, in behalf of their fellow men, have made their name a household word in Fort Wayne and their memory will be held in benediction.

CRIME.

A Jealous Husband in Indianapolis
Shoots His Wife and Then
Kills Himself.

INDIANAPOLIS, Oct. 18.—Last Thursday a man and woman sought lodging at the National hotel in this city. They appeared to be respectable married people and were assigned apartments. They registered as Henry Zeigler and wife, Cincinnati. Yesterday morning, getting anxious about their bill, the proprietor of the hotel sent a message to Zeigler's room that he would like to see him. His wife says that soon after the message was received he took his revolver and said to her: "Minnie our time has come." She began to scream, and then fell on her knees and prayed, finally working her way to the bell rope. He then fired two shots at her, two taking effect. She fell as if dead, and he placed the pistol under his chin, pulled the trigger, and the ball crashed through his brain, killing him instantly.

Business Failure.

CHICAGO, Oct. 18.—King Bros. & Co., wholesale cotton factors, on Vine and Water streets, assigned to Charles Demmbech. Liabilities \$10,000.

Attention Fifth and Ninth Ward Democrats.

There will be a rally in the Fifth ward at Anderson's hall to-morrow (Tuesday) J. A. Pratt, of Louisville, was made temporary chairman. He explained that the object of the convention was to make the liquor business as respectable as possible.

Don't forget the fair to-night.

The Civil Service Law.

WASHINGTON, Oct. 18.—The president has requested the Indiana office-holders to reply to Mr. Swift's charges of violating the civil service law.

Go to the fair at library hall.

Attention, Uniform Rank C. K. of A.

All members are requested to meet at Library hall this evening at 7 o'clock sharp in full uniform to attend the opening of St. Paul's church fair.

JESSE L. WILLIAMS.

Address at the Funeral of Jesse Lynch

Williams, in the First Presbyterian

Church, Fort Wayne, Ind., Oc-

tober 13, 1886, by the Rev.

D. W. Moffat, D. D.

A very remarkable life has come to a

close. The busy brain, the warm heart

and the active body no more obey the

behests of the indomitable will. A

great and good man distinguished in

his day among his fellow men in every

sphere of his honorable and useful ac-

tivity, and a devoted servant of God,

has gone to his rest.

Perhaps there never was a time be-

fore when people lived so much in the

present as this time, in this country of

ours. We think little of what happen-

ed yesterday, but we are all intent up-

on what is happening to-day. It is the

age of the daily newspaper. The com-

ing generation crowds the passing one

off the stage of action without asking

what it has done, and the measure of a

man is what he is, not what he has

been. But to know one, who having

passed the three score years and ten of

life, has been honored and loved, and

goal of four score years, and for whom

the "strength" of the aged years by

reason of infirmity, was in great part

what the Psalmist describes as "labor

and sorrow," we need to go back and

look at the man in the strength of his

manhood, and full possession of his

mental and physical powers.

Jesse L. Williams was a name well

known thirty, forty, and even fifty years

ago, to a generation that has passed

away. For him there was no hesita-

tion in saying "yes" or "no" to the

question of duty, and for him the

goal of four score years, and for whom

the "strength" of the aged years by

reason of infirmity, was in great part

what the Psalmist describes as "labor

and sorrow," we need to go back and

of civil engineering, and in 1824, at the

age of seventeen, left his father's farm

and carried the chain under Samuel

Forster, in the first survey of the Miami

and Erie canal from the city of Cin-

cinnati to the Maumee Bay, which was

for half its length then lay through an

unbroken wilderness. Applying him-

self with enthusiastic diligence and in-

dustry to the mystery of the science

which he practiced the art of his profes-

sion, such was his rapid advancement

that in three years, in the final in-

struction of the work, he was given

charge as assistant of one of its most

difficult sections. In the spring of

1830, Daniel S. Bates, the chief engineer

of Ohio, recognized his integrity and

abilities, appointed him to take charge

of the final location of the canal from

Licking Summit, near Newark, to Chil-

licothe, and after the line was located

and placed under contract, the con-

struction of the canal was commis-

sioned to his supervision.

Meantime Indiana had begun to fol-

low Ohio in the spirit of public im-

provements, and had conceived the

project of a canal to connect Lake Erie

with the navigable waters of the Ma-

umee river. While Ohio was calling

him to other positions of honor and

responsibility, the Indiana canal board

of commissioners attracted by the rising

reputation of the young engineer, ap-

pointed him to take charge of the

location and construction of the

Wabash and Erie canal, which ap-

pointment being accepted, brought Mr.

Williams, in 1832, to Fort Wayne.

Having been married November 15,

the preceding year, to Susan, daughter

of John, William Creighton,

of Chillicothe, he brought with him

his young wife, who now, with three

sons, Edward P., the Rev. Dr. Meade

C. and Henry L., survives him. And

this has been his eventful and awak-

ing life. He was appointed to the

legislature having passed an act au-

thorizing the making of surveys and

estimates for canals and railroads in

almost every part of the state, and the

several surveys of new canals being

located and full possession of his

professional duties became exceed-

ingly diversified and laborious; but to

him they were intensely interesting.

He was never more happy than when

worked up to the measure of his ca-

His wonderful energy now showed

itself: A single exploring party, en-

gaged under his directions, in ascer-

taining in advance of the surveys,

for their guidance, the relative

heights of various points, and of the

water courses for the site, and of the

canals, ran accurately a continuous

line of levels 60 miles in extent, be-

tween early spring and the succeeding

autumn. And when the legislature

passed in December, 1835, more than

500 miles of definite lines of canal

with estimates thereon, were reported

to that body by the engineers under

his charge, the whole having received

his personal attention. In January,

1836, he was appointed chief engineer

of the canal, and in the same month

he was elected chief engineer of the

Wabash and Erie canal. The next year

in addition to this, he was made chief

engineer also of all the railroads in

the state. His supervision then embraced

the entire 1,369 miles of public works.

The general principles of surveying, and

location, the plans of every im-

portant structure and the letting of all

contracts came in their order under

his supervision. The means of travel

was by horseback through forests and

swamps, in December, 1835, when the

state engineer, Mr. Bates, was elected

chief engineer of the canal, and in the

same month he was elected chief engineer

of the Wabash and Erie canal. The next

year in addition to this, he was made

braced the entire 1,369 miles of public

The Pennsylvania Railroad company gave the Blaine party a special train over the road.

Mr. D. B. Kehler, manager of the Bickford Furniture company, was at Warsaw over Sunday.

Some of the restaurants here use oleomargarine without a label. This is nothing less than a crime.

The Temple box office opens for Nye and Riley to-morrow morning. Do not forget. Secure your seats early.

Caroline W. Phillips has begun a suit in ejectment against Frank B. Vogel. Damages to the extent of \$1,000 are claimed. The property involved is the West Berry street residence long occupied by Mr. Vogel. W. P. Brown is attorney for the plaintiff, and has secured an order restraining the defendants from removing fixtures from the premises.

The railroad men, in convention at New York, magnanimously agreed to wait for the result of the experiments with a twenty-four o'clock system, and for public opinion on the matter, before adopting it all over the country. It is in use now only on the western division of the Canadian Pacific road. Superintendent O'Rourke and Gorham, of this city, attended the meeting.

The Pennsylvania Railroad company has fitted up on the western divisions twelve coaches with the Standard Heater and Ventilating company's heaters. The fire with these heaters is beneath the coach. The coal reservoir is filled at a terminal, and thereafter, until consumed, it is self feeding, similar to a bare burner. It is claimed that, being in the center of the coach, the heat is evenly distributed throughout the car.

The Odd Fellows' Mutual Aid association has paid \$3,500 to the estate of O. F. Wilson, of Danville, and yet after sixty-seven years of recognition as one of the greatest benevolent organizations in existence, during which time \$11,151,680.08 have been paid to relieve distress, bury the dead, and educate the orphan, and assist the widow, a railroad monopoly has declared the order not benevolent in character.

The Washburn people have demanded of Commissioner Mudgett that a meeting of the managers shall be held, and the subject of rearranging and reallocation percentages be taken up. The Washburn claims that its business has increased to an extent that makes the present basis unfair and inequitable. A meeting of the Southwestern railway association has been called by Commissioner J. W. Mudgett for October 23, at which time the demand will be given due consideration.

Nye and Riley.

The Evansville, Ind., Courier says: "The Nye-Riley entertainment last night was well attended. The humor of Bill Nye is so well known and appreciated by so many that any attempt at a description of his part of the evening's entertainment would be superfluous.
